Terms of Agreement

1. Rate Confirmation should not be used as BOL
 2. CARRIER COMPLIANCE WITH CALIFORNIA AIR RESOURCES BOARD REGULATIONS CARRIER understands and agrees that, while operating equipment at any time in California, CARRIER must comply with all applicable regulations promulgated by the California Air Resources Board ("CARB") in addition to any other applicable environmental or emissions laws in the State of California. CARRIER is responsible for understanding the applicable regulations. The below description is not intended to be, nor to be relied on as, a full description of the applicable legal requirements. CARB Truck and Bus Regulation (Title 13, California Code of Regulations, Section 2025) ("TBR"): The TBR generally requires trucks operating in California to be equipped with 2010 or newer engine model years. Prior to CARRIER transporting any shipment subject to this Agreement that originates in, is destined for, or moves through California, CARRIER shall submit to BROKER evidence that it is compliance with the TBR. This evidence shall be submitted annually by January 31st of each year thereafter during the term of this Agreement. Evidence of compliance shall include the following: A Certificate of Reported Compliance issued by CARB through reporting via the Truck Regulation Upload, Compliance, and Reporting System ("TRUCRS"); or if CARRIER does not report via TRUCRS, a dated and signed written statement certifying that CARRIER is aware of its obligations under the TBR and provides engine model year information and any other information requested by BROKER about trucks to be used in operations in California. CARB Transportation Refrigeration Unit Airborne Toxic Control Measures Regulation (Title 13, California Code of Regulations, Section 2477 et seq.) ("TRU"): Motor carriers can only dispatch trucks and trailers equipped with trailer refrigeration units that are compliant with the TRU and/or are prohibited from operating non-compliant trailer refrigeration units in California. CARRIER shall, regardless of TRU obligations, register all trailer refrigeration units to be operated in California and provide BROKER proof of such registration and compliance with the TRU. CARB Tractor-Trailer Greenhouse Gas Regulation (Title 13, California Code of Regulations, Section 95301 et seq.) ("GHG"): The GHG generally requires motor carriers to use aerodynamic tractors and trailers that are also equipped with low rolling-resistance tires when operating in California. CARB Heavy-Duty Inspection and Maintenance Program (Title 13, California Code of Regulations, Section 2195 et seq.) ("Clean Truck Check"): The Clean Truck Check generally requires motor carriers to report their vehicles to CARB, pay a compliance fee, and submit to periodic emission testing. CARB Advanced Clean Fleets Regulations (Title 13, California Code of Regulations, Section 2013 et seq. (Drayage Trucks) and Section 2014 et seq. (High Priority Fleets) ("ACF"): The ACF generally
