For: DB ENTERPRISES

This receipt is accepted with understanding Gulf Stream Marine is not responsible for condition, weight or quality of said material. Weight is not a scaled weight. By signing this ticket driver hereby certifies that transport was loaded per his instructions and stated quantities were received in good order unless otherwise noted.

Terms and Conditions:

- The products covered by this receipt are delivered f.o.b. point of loading and Gulf Stream Marine will not be liable in any way for any accidents, damage either to persons or to property, loss of property or delay, arising out of, or occurring during the transportation of the products herein described or after products are delivered.
- Gulf Stream Marine exercises no control over and does not assume any responsibility for the transportation of the products covered by this receipt.
- Claims for errors, shortages or unsatisfactory grade or condition of products will not be allowed by Gulf Stream Marine unless notice is given before the products have left Gulf Stream Marine's premises and Gulf Stream Marine has been given an opportunity to make an inspection.

Consumer Information Sheet

Creosote Pressure-Treated Wood

CONSUMER INFORMATION*

This wood has been preserved by pressure treatment with a U. S. Environmental Protection Agency (EPA)-registered anti-microbial pesticide product containing creosote. Creosote pressure-treated wood provides protection against attack by fungi, insects, and marine borers.

Creosote remains in the pressure-treated wood for a long time. Prolonged or repeated exposure to creosote may present certain hazards. Therefore, the following precautions should be taken both when handling creosote-treated wood and determining where to use it.

This Consumer Information Sheet is not meant to replace the Material Safety Data Sheet (MSDS) for creosote pressure-treated wood. The MSDS must be read and understood before handling creosote pressure-treated Wood

Use Site Precautions for Creosote-Treated Wood

Creosote-treated wood commodities must only be used for those applications included in the American Wood Protection Association (AWPA) use category standards as set forth in the most current edition of the AWPA Book of Standards. For more information, contact the treater and/or the AWPA.

Creosote-treated wood is for exterior/outdoor uses only.

Creosote-treated wood should not be used where it will be in frequent or prolonged contact with skin.

* This Consumer Information Sheet is being distributed with creosote pressure-treated wood as part of the wood treating industry's voluntary consumer awareness program, which EPA approved in 1986. Since that time, EPA has completed a comprehensive reregistration review of creosote, creosote registrants have voluntarily eliminated all non-pressure treatment uses of creosote, and certain American Wood Protection Association standards have changed (for example, the elimination of creosote-treated wood block flooring). This updated Consumer Information Sheet reflects these developments.
